Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed May 13, 2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered and will not appear on any patent issuing from the instant application.

The Office has not received a copy of the publications listed as Exhibit A and Exhibit C. The titles provided in the IDS do not match any publication received by the Office. If Applicant wishes the publications listed to be considered and appear on any patent issuing from the instant application, Applicant is requested to submit a copy of each publication, wherein the title of each publication matches the title listed in the IDS and mark the first page of each publication as "Exhibit A" or "Exhibit C" so that each publication is readily identified.

It is noted that the Office has received a publication titled "Renaissance Prime 10/20/30 Self-Priming Canister Filters", consisting of four pages, and published by hydorTM. This publication has not been listed on any IDS received by the Office.

Terminal Disclaimer

2. The terminal disclaimer filed on May 13, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of

Art Unit: 1724

US Pat No 6,692,637 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

3. Claims 14-26, 28-44, and 46-79 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:

While it is known in the art to provide an aquarium water filter having first and second porous walls having first and second densities and spaced apart from each other, in the examiner's opinion, the prior art fails to teach or fairly suggest the first density being different from the second density.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

Copies of Exhibit A and Exhibit C listed in the IDS.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
